EDUCATION

PPG Institute of Technology, Coimbatore

B.E. Computer Science and Engineering

2024 – 2028

Government Higher Secondary School,
Vagarayampalayam, Coimbatore

Higher Secondary Education

Completed

Holy Rosary Matriculation School,
Karumathampatti, Coimbatore

Matriculation

Completed

ABOUT ME

Computer Science and Engineering student at PPG Institute of Technology with a strong interest in Artificial Intelligence, software development, and web technologies. Actively builds practical projects, experiments with new tools independently, and enjoys explaining technical concepts to peers in accessible ways. Looking to contribute to an AI-focused student community as a campus ambassador by encouraging responsible, curiosity-driven exploration of emerging technology.

SKILLS

- **Programming:** Python, Java, JavaScript, C
- **Frontend:** HTML, CSS, JavaScript
- **Backend & Core:** Data Structures, Algorithms, OOP, Cloud Computing
- **Database:** SQL, PostgreSQL, Firebase, DBMS
- **Core CS:** OS, CN

WORK EXPERIENCE

LIVEWIRE INSTITUTION | AI POWERED PYTHON INTERN

Internship Period

Python & Artificial Intelligence Application Internship

- Worked on Python programming tasks with a focus on AI-related concepts and practical problem solving.
- Gained hands-on experience applying Python to real-world development scenarios.
- Strengthened understanding of AI fundamentals through structured assignments.
- Developed core competencies in debugging, iterative software development, and writing clean, readable code.

PROJECTS

AI CHATBOT | Student Project

- Built a conversational application using Python to explore interactive software integration.
- Implemented core input-output logic to simulate user interaction and dynamic response generation.
- Deepened understanding of AI model communication and software design principles.
- Focused on clean architectural structure and an intuitive user experience.

WEB DEVELOPMENT PROJECTS | Personal Portfolio

- Created structured web pages using HTML, CSS, and JavaScript to refine frontend engineering skills.
- Designed responsive user interfaces with attention to layout consistency, readability, and accessibility.
- Maintained project codebase on GitHub to track version history and facilitate peer code reviews.
- Leveraged projects to build a solid foundation in web application structure and frontend workflows.

ACTIVITIES & COMMUNITY INTERESTS

- Interested in sharing AI knowledge and helping peers understand practical AI tool usage.
- Actively explores new technologies independently and applies learning to hands-on projects.
- Comfortable communicating complex technical ideas in simple terms to non-technical audiences.
- Eager to participate in and contribute to student-driven technology communities.
